# Daxara Trailers

## Superior flexibility and versatility

Daxara trailers are the number one manufacturer of flat pack trailers in Europe. Their products are the highest quality and each one is made with care and precision. They are also in compliance with ECC regulations meaning they are safe for use on European roads. Customers looking for a quality trailer that will provide many years of service can trust in a Daxara trailer from Indespension.

We have a large selection of trailers available, including flat pack, motorcycle and the entire Daxara range. They range from small models for camping to heavy duty braked trailers with a maximum weight capacity of 1500kg. Whatever you need the trailer for we are confident you will find the perfect one with us.

On top of the trailers themselves, we have a large array of spare parts in stock and can order additional parts from the manufacturer when required. We ensure a full selection of accessories is always available so you can keep your trailer on the road for as long as possible.

### DAXARA 127N

- Gross weight 400kg
- Unladen weight 65kg
- Maximum carrying capacity 335kg
- Internal dimensions 1.20 x 0.92 x 0.35m
- Unbraked single axle
- Tyre size 400 x 10
- Tipping feature - stores on end

### DAXARA 107N

- Gross weight 350kg
- Unladen weight 55kg
- Maximum carrying capacity 295kg
- Internal dimensions 1.06 x 0.85 x 0.32m
- Unbraked single axle
- Tyre size 480 x 8"
- Tipping feature - stores on end

## DAXARA 148N

- Gross weight 1200kg
- Unladen weight 110kg
- Maximum carrying capacity 502kg
- Internal dimensions 1.45 x 0.99 x 0.40m
- Unbraked single axle
- Tyre size 500 x 10"
- Tipping feature - stores on end

## DAXARA 158N

- Gross weight 650kg
- Unladen weight 110kg
- Maximum carrying capacity 540kg
- Internal dimensions 1.45 x 0.99 x 0.40m
- Tyre size 135 x R13
- A-Frame drawbar & colour coated mudguards
- Secondary damper on suspension
- Reinforced double skin panels

**DAXARA 198N**

## Daxara 198N

With an extra 15 inches of usable space, the Daxara 198N is durable and versatile enough for more regular commercial use. The reinforced 'A' frame and double skin side panels further increase the robustness of the trailer. As with all the Daxara trailers, the rear panel/tailgate is removable, which along with the tipping feature allows for easier unloading of materials such as sand, gravel and earth. In addition to this, the front panel opens and can also be removed on the Daxara 198N trailer.

### STANDARD FEATURES

- Gross weight 750kg
- Unladen weight 165kg
- Maximum carrying capacity 585kg
- Internal dimensions 1.84 x 1.15 x 0.40m
- Tyre size 145 x R13
- A-Frame drawbar
- Secondary damper on suspension
- Colour coated mudguards
- Reinforced double skin panels

## PROPSTANDS

- Ensures the stability of the trailer while unloaded
- Gives extra stability while loading/unloading heavy items
- Height adjustable
- Fixes at the rear of the trailer

# Erde Trailers (Unbraked)

## ID200W

- Securing rail along all sides
- Galvanised steel welded chassis
- Timber marine ply floor with anti-skid treatment
- Impact resistant timber sides
- Removable front and side panels
- Longer lifespan and more adaptable
- Retains shape and assists in-load stabilisation

## IDPLC240

- Built with a reinforced hot-dip galvanized mechanically welded frame
- Constructed with securing guardrail along three sides
- Non-slip treated wood floor
- Full width ramp
- Single axle 750kg unbraked
- Recessed electric lights

A side view of a silver Erde IDPLM170 flatbed trailer. It features a single axle with a black tire and a silver fender. The trailer has a dark grey non-slip floor and a silver metal frame. A red and black hitch is visible at the front. The brand name 'ERDE' is printed on the side of the frame.

**IDPLM170**

## Erde Expert Braked Trailer

A new frame profile 10 cm high with modular structure, integrating 6 anchor rings. The specific structure of this chassis with a metal reinforcement at the centre facilitates many uses, such as the installation of additional anchoring rings and gives it an unmatched rigidity. A low loading threshold and excellent integration of the axle reduces the slope when the platform is tilted. The two fixture lights increase visibility for all users, for added security. The powerful lights ensure good visibility and are well protected by galvanised supports. Non-slip marine floor 15 mm.

### STANDARD FEATURES

- Gross weight: 1300KG
- Unladen weight: 293KG
- Axle capacity: 1350KG
- Internal body dimensions: 3 x 1.7 x 0.10m [LxWxH]
- Wheels: 165R13C
- Braked
