Plant Trailers

For those on site

***Robust and reliable,
our trailers are
purpose built
for heavy loads***

indespension

Indespension Limited Paragon Business Park, Chorley New Road, Horwich, Bolton, BL6 6HG

Our Plant Trailers are built to last

Plant trailers operate in some of the toughest environments, so when you invest in the right trailer for the job, you need to know it's going to last.

Indespension high performance plant trailers have been designed in consultation with plant hire businesses to ensure we deliver on every aspect. Our road going stability is tested far beyond normal performance limits. Using a special track at the MIRA (Motor Industry Research Association) test facility, our trailers are subjected to trials over punishing surfaces at excessive speeds.

Features include bucket rests, extended drawbars and special weight-bearing mudguards.

STRONGER

Fully welded, hot dipped galvanised chassis as standard

TESTED TO THE MAX

We put our trailers through their paces so they're always up to the challenge

VALUE FOR MONEY

Longer lasting, reducing the cost of ownership

Indespension trailers are manufactured in the UK and represent the very best in trailer design

MODEL DISPLAYED CHALLENGER 50

The AD and Challenger Range: a trailer for every job

Indespension AD Plant Trailers represent the ultimate in strength, robustness and longevity. Constructed from incredibly sturdy chequer plate steel, they are built to take a bashing!

Our Beavertail allows a smoother, lowering experience from a shallow angle.

STANDARD FEATURES

Premium auto-adjust brakes

Fully welded, hot dipped galvanised chassis

Large 5 Stud PCD fitment

Designed to last

Low loading angle

MODEL DISPLAYED Challenger 50

MODEL DISPLAYED AD2800

Features & benefits

AD Range

- Fully welded hot dipped chassis provides maximum strength and maximum corrosion resistance
- SFL bearings - requires no adjustment, has a high safety factor even with a very high mileage
- Large 5 stud pattern provides maximum wheel security
- Dual voltage LED Lighting provides flexibility to tow with different vehicles
- Strengthened chassis - steel is positioned to allow good flexibility to allow plant scissor lifts ride on rollers
- Auto reverse brakes

Challenger 50 / Beavertail

- Low loading angle beavertail chassis with extended ramp
- 4 x 1 tonne deck rings for lashing down machine
- 2 x 1 tonne deck rings for lashing down bucket
- Sealed for life bearings and AL-KO brakes
- 5 stud wheels
- Open style bucket rest to accommodate spare wheel
- Extended rear pivot bar for increased strength

AluMAX Range (see overleaf)

- Industry leading payload: 2,910kg
- Sealed for life bearings
- Premium auto adjust brakes
- Large 5 stud PCD fitment
- Aluminium decks and ramps
- Low bed height and loading angle

Lightweight yet mighty in action

Introducing the AluMAX, lightweight 3.5ft plant trailer.

Combines maximum durability whilst using the lightest materials. The AluMAX also features Indespension's SuperRide axle, Indespension coupling, sealed for life bearings & auto adjust brakes - all guaranteeing a long service-life.

Specification

Making Tipping Quick and Easy

Tipping trailers are a valuable and versatile tool for any commercial business. Having your own on site can reduce your operating costs, enabling quick and easy removal of site waste as and when needed.

Indespension tipper trailers are designed to save you time and effort with 12" quick release profiled galvanised pressed steel sides. Whether you choose electric or manual you can choose from a great range of optional extras including mesh side extensions, ladder rack, spare wheel and a choice of steel or aluminium ramps making them versatile enough for a wide variety of tasks.

As always, strength comes as standard at Indespension, with hot-dipped galvanised welded chassis, independent suspension and robust steel floors.

SMOOTH

Indespension 'SuperRide' suspension

STRONGER

Heavy duty non-slip phenolic flooring

VALUE

Built to last!

MODEL DISPLAYED TPR27085

Electric or Manual

We offer a 2700kg 8' x 5' Tipper as a manual or electric tipper; and a 3500kg 12' x 6' tipper with electric tipping, which is also fitted with a manual override option. All our models feature a fully hot-dipped galvanised welded chassis, independent suspension and steel floors.

Choose the electric model for the ultimate of ease, with battery operated tipping controlled at the touch of a button on the remote control.

STANDARD FEATURES

12" quick release profiled galvanised sides

50° degree tipping angle

AL-KO auto adjust brakes

Sealed for life bearings

Steel floor
