indespension.co.uk

The Indespension Tipper trailers have an excellent tipping angle of 50 degrees, which goes further than any of our competitor products. They are built with removable drop sides and either a manual or electrically operated hydraulic lift (depending on the model chosen). Constructed with a fully welded and reinforced box section chassis, low profile wheels and tyres, Indespension's 'Super-Ride' suspension, sealed for life bearings, and a heavy duty jockey wheel, these trailers are built for strength and durability meaning you will be choosing the ideal companion for any job.

Please note, premium options and additional parts will affect your trailers gross weight, unladen weight and payload.
