

Towbar & Service Technician - West Midlands Branch

Indespension sell all things towing and trailer related including new and second-hand trailers, trailer parts and towing accessories. We fit towbars, cycle carriers and roof boxes, together with hiring trailers and offering a full trailer servicing solution.

Working in an Indespension retail outlet as a Towbar & Service Technician involves fitting towbars, servicing and repairing trailers and fitting cycle carriers/roof boxes. You will also be expected to answer telephone, help with Customer enquiries and taking bookings for the Workshop. You may also be required to work offsite servicing Customer trailers.

We need to be proactive to ensure our customers keep coming to us and we attract new ones, so we need to offer a First Class service to individuals and companies, to ensure that Indespension is the first trailer, component and towing solutions company that they think of.

Working hours: 9:00a.m. - 5:00p.m. Monday - Friday 37½ hours per week.
