

Trailer Servicing Technician – Bolton Branch

Indespension sell all things towing and trailer related including new and second-hand trailers, trailer parts and towing accessories. We fit towbars, cycle carriers and roof boxes, together with hiring trailers and offering a full trailer servicing solution.

Working in an Indespension retail outlet as a Trailer Servicing Technician involves working alongside the Towbar & Service Technician, servicing and repairing Customer and Company trailers, building flat pack trailers and fitting cycle carriers/roof boxes. You will also be expected to answer telephone and email enquiries, helping customers face-to-face, taking bookings for the Workshop and processing payments for products/services with retail and account customers.

We need to be proactive to ensure our customers keep coming to us and we attract new ones, so we need to offer a First Class service to individuals and companies, to ensure that Indespension is the first trailer, component and towing solutions company that they think of.

Working hours: 09.00 a.m. – 17.00 p.m. Monday – Friday.

Salary: Above minimum wage.

Bonus Scheme: Subject to meeting targets.

Holidays: 32 days including Bank Holidays.
